

WASTEWATER TREATMENT PLANT OPERATIONS MANAGER

GENERAL STATEMENT OF RESPONSIBILITIES

This position oversees the operation and maintenance of the wastewater treatment plant, advanced water treatment facility, and reclaimed water distribution and disposal facilities to ensure the efficient, safe, and economical treatment of wastewater, disposal of sludge and delivery of reclaimed water. The incumbent is guided by policies and assignments received from the General Manager but exercises independent judgment in accomplishing the work and developing new programs and is held accountable for results.

EXAMPLES OF DUTIES TO BE PERFORMED

1. Plans, organizes, assigns, directs, and reviews the work of employees engaged in the operation and maintenance of the wastewater treatment plant and advanced water treatment facility, and reclaimed water distribution and disposal facilities.
2. Oversees operation of facilities to meet all applicable regulatory requirements and in accordance with design criteria. Develops and implements techniques and methods of process control which increase plant efficiency.
3. Oversees preparation of monthly, quarterly, and annual reports.
4. Oversees the work of others contracted to work on plant components.
5. Confers with General Manager on plant operational problems.
6. Oversees the preventive maintenance program of the plant.
7. Oversees emergency and unscheduled work to assure appropriate follow through.
8. Prepares reports for submission to General Manager.
9. Implements, directs and enforces plant safety and risk management programs.
10. Coordinates equipment repair or replacement such that plant effluent quality limits are maintained.
11. Oversees preparation of work orders.
12. Oversees the requisition process for tools, materials, equipment, and services.
13. Responsible for inventory of stored material for use in the plant.
14. Reviews and comments on all plans for construction, repair, or replacement of any plant components.
15. Oversees training activities.
16. Evaluates and disciplines subordinates.
17. Assists General Manager in preparation of budget by providing input relative to plant O & M fiscal needs.

18. Performs other duties as assigned by General Manager.

REQUIRED KNOWLEDGE AND SKILLS

1. Knowledge of District policies and procedures.
2. Knowledge of the methods, materials, tools and equipment used in the operation, maintenance, inspection, repair, and installation of wastewater treatment plant components.
3. Knowledge of the mechanical, biological, and chemical processes involved in the operation of a wastewater treatment plant.
4. Knowledge of the occupational hazards in wastewater treatment plants and safety measures to be implemented.
5. Knowledge of principles of sound management and budget.
6. Ability to plan and direct the work of subordinate employees.
7. Ability to operate and maintain equipment used in the wastewater treatment process.
8. Ability to recognize needed repairs.
9. Ability to perform, analyze, and interpret laboratory tests for the purpose of making operational adjustments.
10. Ability to deal effectively with people at all levels.
11. Ability to read and interpret engineering specifications and drawings pertaining to plant expansions and improvements.
12. Ability to understand and follow oral and written instructions in the English language.

REQUIRED TRAINING AND EXPERIENCE

This position requires a degree in civil or sanitary engineering or related technical field with at least seven years experience in plant operations including three years in a supervisory capacity. Other combinations of experience and education which provide the knowledge and skills required to perform the job may be considered.

ADDITIONAL REQUIREMENTS

1. Must pass a pre-employment physical and drug test.
2. Must possess a valid AZ driver's license with a good driving record.
3. Must possess a Grade IV Arizona Department of Environmental Quality Wastewater Treatment Certification.
4. Ability to obtain and maintain certification to wear respirator & SCBA equipment in accordance with OSHA requirements.
